CAREER OBJECTIVE

Dedicated **full-Stack** Developer specializing in **MERN** stack and **MVC** architecture, with expertise in JavaScript, Java, C++, and Python. Passionate about designing intuitive **UI/UX** using Figma/Framer. Built impactful solutions like SpeakSail (interactive English learning platform for elementary students) and AthletiHub (sports facility management tool for rent splitting, scheduling, and esports). Proficient in predictive modeling (Python) and database management (**MySQL, MongoDB**). Eager to leverage technical skills and creativity to drive innovation in dynamic projects.

SKILLS

- Full-Stack Development: Proficient in **React, Node.js, and Express.js**
- Web Technologies: Expertise in **JavaScript, PHP, HTML5, and CSS**
- Databases: Experienced with **MySQL** and **MongoDB**
- Programming Languages: Experienced with **Python**, **C++**
- UI/UX Design: Competent in **Figma** and **Framer**
- Project Management: Expert in using **JIRA**, with a strong grasp of **Agile** and **SCRUM** methodologies
- Recently working with **Next.js**

PROJECTS

- **SpeakSail:**
  A **MERN** stack application revolutionizing elementary English learning. Featuring well-researched exercises, it enables teachers to track student progress through stored audio, written responses, and answers. Personalized feedback enhances each student's learning journey.
